

babyname month 3

MONTH 03

“I am practicing how to move and interact”

MY FEET are practicing pushing down on the floor

Watch me try to lift **MY HEAD** when I am on my stomach

Look! I'm swiping at dangling objects with hands and grasping and shaking my toys

I'm getting **MY ARMS** strong by pushing up on them while on my stomach

I'm watching your faces intentionally and recognize familiar objects and people at a distance

Do you love how I am starting to babble and imitate sounds?

Your voice makes me smile and I'll turn my head to hear you

I bet you are proud I smile in social settings

It's really fun playing with other people so I cry when play stops

My face and body is allowing me to be more communicative and expressive
